Hortifit Nutrient A+B

Rootstimulator

Enzymes

Bloomstimulator

Blossom Powder

pH Soil: 6.0-6.5  
pH Hydro: 5.5-6.4  
pH Coco: 5.5-6.2

### User manual per 100 L feedwater:

The total E.C. value is the E.C. of nutrients and additives, including the E.C. of the feedwater. We have based our information on feedwater with an E.C. of 0.4.

### Tips:

Always add the additives first and then adjust the e.c. value with the basic nutriënt. Then add pH-Bloom as needed for the desired pH.
